

Thanks to its compact dimensions, the MicroTCA Cube is ideal for use in an industrial environment. It may be mounted either directly on the mounting plate, or on the machine itself. This is achieved using mounting brackets with integral keyholes or adaptors to mount directly on support rails.

Benefits at a glance:

- Complies with MicroTCA.0 R1.0.
- Compact design.
- For mounting on a mounting plate or directly on the machine.
- 7 slots for 6 x AMC, 1 x MCH.
- Plug-in fan unit with two axial fans and filters.
- Integral AC/DC power pack.
- Fully assembled, wired and function tested.

Technical specifications:

- 6 slots at the front.
- Including backplane, 6 slots.
- Integral, pull-out fan unit.
- AC/DC power pack, 350 W.

Material:

Stainless steel

Supply includes:

1 enclosure system.

Accessories:

Mounting bracket for use on mounting plates with keyholes. Top-hat rail adaptor for mounting on support rails.
